Bengaluru, Karnataka, India

EDUCATION

Mohan Babu University

Tirupati, Andhra Pradesh

Bachelor of Technology in Computer Science and Engineering (Data Science) CGPA: 9.16/10.0

Aug 2022 – May 2026

EXPERIENCE

Product Intern

Dec 2025 – Jan 2026

GenAxle.com

(Remote) Delhi, India

- Tested **end-to-end product workflows** to identify functional and usability issues across core platform features, improving overall product quality.
- Reported bugs with clear reproduction steps and detailed documentation, enabling **30% faster resolution** by engineering team.
- Collaborated with developers during pre-launch iterations to validate feature behavior and optimize user flows.
- Gained hands-on exposure to product lifecycle workflows in an **early-stage startup** environment.

PROJECTS

Leaf Doctor – Disease Detection & Multilingual Pesticide Recommendation

[GitHub](#)

- Built an **end-to-end plant disease detection system** using YOLO(v5, v8, v11) achieving **92% accuracy** on test dataset.
- Integrated **GenAI-driven** multilingual module to deliver crop-specific pesticide recommendations in **5+ regional languages**.
- Optimized inference pipeline reducing prediction time by **40%** using model quantization and batch processing.

AI Agent for Data Analysis – Automated Workflow

[LinkedIn](#)

- Developed **automation workflow** using n8n and Groq Chat Model to analyze startup funding data from Google Sheets.
- Implemented **webhook-triggered pipeline** providing AI-generated insights on top industries and cities for funding opportunities.
- Reduced manual analysis time by **80%** through automated data extraction and intelligent summarization.

Data Career Insights – Exploratory Data Analysis

[GitHub](#)

- Conducted comprehensive **EDA** on 231 MB dataset containing 786K tech job listings using Python, pandas & Seaborn.
- Cleaned and processed 15+ features including job title, skills, experience, salary and location with **95% data quality**.
- Identified top 10 in-demand skills and salary trends across different experience levels and geographic regions.

SQL Data Cleaning & EDA – Layoffs Dataset

[GitHub](#)

- Performed advanced data cleaning on layoffs dataset handling NULLs, duplicates, and standardizing date formats.
- Analyzed layoffs trends by country, industry and company using CTEs, window functions and aggregation queries.
- Identified patterns showing 35% increase in tech layoffs during specific quarters using temporal analysis.

TECHNICAL SKILLS

Programming Languages: SQL, Python

Data Analysis & Visualization: NumPy, Pandas, Matplotlib, Seaborn, Power BI, MS Excel

Cloud & Tools: AWS, MySQL, n8n

Core Competencies: Data Cleaning, EDA, Statistical Analysis, Data Storytelling, Problem Solving

LEADERSHIP & VOLUNTEERING

Member – Announcements Team

2024

- Managed campus-wide event communications reaching 2000+ students and coordinated with multiple departments for timely information dissemination.

Coordinator of Volunteers – Discipline Committee

2023

- Led 45+ volunteers coordinating logistics for university events with 3800+ attendees while collaborating with faculty on event guidelines and safety protocols.

CERTIFICATIONS

- **AWS Academy Graduate – Data Engineering – AWS** — [View](#)
- **Google Advanced Data Analytics Professional** – Coursera — [View](#)
- **Google Cloud Data Analytics** – Google Cloud Skills Boost — [View](#)
- **SQL (Intermediate)** – HackerRank — [View](#)
- **Python - For Data Driven Decision Making** – Kaggle — [View](#)

ACHIEVEMENTS

- **MePro Pearson Level 10:** Global Scale of English Fluency and Communication – Pearson — [View](#)
- **JEE Mains 2022:** Achieved **90.64 percentile** among 900K+ candidates — [View](#)
